

FROM THE
PRODUCERS
OF HIGHWAY
THRU HELL

HEAVY RESCUE

CLOSURE IS NOT AN OPTION

THEY GO TO HELL AND BACK TO GET YOU HOME

From the producers of hit international success, *Highway Thru Hell*, comes a new series that focuses on the unique challenges and difficult working conditions endured by heavy rescue vehicles on the 401, the world's busiest highway. We follow multiple major tow operators, rescue and maintenance crews day and night as they battle to keep traffic flowing along North America's most important trade route.

These businesses work tirelessly to keep the roads open through any weather condition. From monster snow storms creating kilometres of mayhem to overturned trucks, their efforts prevent the 401 from grinding to a crippling halt through the worst of the winter driving season.

Heavy Rescue is a series about men and women facing incredible stakes in a fast-paced, relentless environment. Jobs and lives depend on these highways. And it's up to the *Heavy Rescue* teams to keep them open.
