OUTLAW TECH

TECH GONE BAD AND ON THE LOOSE

THIS SERIES EXPLORES SOME OF THE WORLD'S MOST OUTRAGEOUS HIGH-TECH CRIMES AND THE SCIENCE BEHIND HOW THEY WERE PLANNED AND COMMITTED.

From the physics of defeating heat sensors, to the complex code that cracked thousands of ATMs, each episode takes us step by step through an intriguing battle between the brilliant 'outlaw' science employed by the criminals versus cutting-edge security systems and state of the art policing.

Through dramatic re-creation and exclusive documentary footage of some of the world's most famous cases, including the infamous El Chapo prison escape, this series goes inside true stories of crazy heists and epic crimes and features interviews with world-class experts.
