

THE WORLD'S MOST EXTREME ...

6 x 60' for Travel Channel, Channel 7 (Australia) & International Co Pro

From amazing airports carved into unstable ice shelves, highways built along 1,000 ft sheer cliffs, to spectacular bridges that send you through the clouds and railways running a schedule of homemade trains - these are the most jaw-dropping and extreme places anywhere in the world.

Where there's adrenaline, danger and excitement, this six-part series will be. Using edge-of-your-seat UGC, first-person eyewitness stories, rare archive, and cutting-edge CGI, *Arrow Media* throws the viewer straight into the world's most extreme locations.

Weaving together visceral storytelling and huge engineering, we count down the top 10 *THE WORLD'S MOST EXTREME* airports, railways, roads, tunnels, bridges and waterways.
