# THE OTHER PRINCE WILLIAM

THE ROMANTIC, TRAGIC STORY OF  
THE QUEEN'S PLAYBOY COUSIN

**The Queen's cousin was a playboy Royal who spent the 60s travelling the globe on diplomatic business.**

A love affair in Japan and a rare incurable blood disease caused scandal for the British Monarchy before his glamorous life was cut short when he crashed his plane in 1972. But why do we not know this other Prince William?

This fascinating documentary, packed with evocative archive footage, documents the romance between Prince William of Gloucester and glamorous divorcee, model and former air hostess Zsuzsi Starkloff. William was the Queen's cousin and pageboy at her wedding to Prince Philip in 1947, at which time he was fourth in line to the throne. However, his forbidden romance caused consternation at Buckingham Palace, and Starkloff speaks on camera for the first time about their relationship.
