Baby Animals

Little children love baby animals!

These endearing programmes feature the cutest, cuddliest and most appealing animal babies. The series is made even more delightful by adorable kitten and puppy presenters, charming music and narration voiced by children

- Wildlife adventures featuring the world's cutest animals
- Hosted by adorable animal presenters
- Flexible format

See How They Grow

A charming insight into animal life

This informative and entertaining series presents a delightful opportunity for viewers to follow a variety of animals from birth to adulthood.

Throughout the series, as the animals grow in size and gain knowledge, we visit their homes and join their adventures and antics from the desert to the jungle, and the pond to the sea.

- Humorous narration
- Close-up studio and live-action photography
- Flexible, adaptable format for the international market
