

WHERE CRAZY SCIENCE  
AND KIDS WITH  
SUPERPOWERS COLLIDE!

# QUARX

# WHAT HAPPENS IF YOU MAKE SOMEONE AS HEAVY AS A NEUTRON STAR? OR USE A TORNADO TO MAKE ICE CREAM?

FROM WORLD-RENOWNED PRODUCER JASPER JAMES (FORMER FOUNDER OF WIDE-EYED ENTERTAINMENT AND IMPOSSIBLE PICTURES) THE ANSWERS TO THESE FASCINATING QUESTIONS AND MORE ARE EXPLORED IN NEW CHILDREN'S SERIES QUARX.

FILMED AS A SERIES OF SHORT FILMS (IN 11 AND 5 MINUTE VERSIONS), EACH EPISODE FEATURES A TRIO OF TEENAGERS WHO LIKE TO DO MAD EXPERIMENTS AND POST THEM ONLINE. HOWEVER THESE ARE NO ORDINARY KIDS - THEY HAVE SUPER-POWERS SO THEY CAN ALTER THE FUNDAMENTAL LAWS OF PHYSICS. SO THEIR EXPERIMENTS TEND TO GO COMPLETELY OVER THE TOP!
