From the creators of the award-winning hit series *Billions* comes this wilder-than-fiction story based on Mike Isaac's best-selling book *Super Pumped: The Battle for Uber*. Season one recounts the propulsive true story of one of Silicon Valley's most successful – and most destructive – unicorns, Uber, and the frenzied ascension and inevitable collapse of founder Travis Kalanick and his inner circle

**SUPER PUMPED: THE BATTLE FOR UBER** is the story of Uber and the meteoric rise and fall of its founder, Travis Kalanick. Fiercely determined, haunted by demons of past betrayals and failures, and driven by a vision of a transportation revolution, Kalanick forges Uber from a fledgling startup into a multi-billion-dollar tech titan that changes the world. As Uber reaches worldwide domination, Travis's blinding ambition and tragic flaws allow the rise of a toxic corporate culture that threatens to be the downfall of not only Uber, but Travis himself.
