

SECRETS OF THE OLIGARCH WIVES

PRODUCT INFORMATION
Paramount + • Documentary • 90 Minutes
US Premiere: June 28, 2022

For decades a steady flow of Russian billionaires have set up home in Britain and its capital - aka "Londongrad."

A wild west where dirty Russian money has been easy to plough into property, football clubs and 'charities', even easier to launder back to the motherland - and near impossible to take away... Until now.

As the top oligarchs in Britain face sanctions, and this male-dominated network has come under the spotlight, there's one group of experts that have more insight and first-hand knowledge of this secretive world than any other: Their women.

Delivering a rare, female perspective on the oligarch world, this access-based film meets the women who have lived for years, some for decades, inside this inner circle. The wives and girlfriends - as well as the high-end escorts and nannies - who have been the silent partners... But now are ready to speak out.

With exclusive access to Countess Alexandra Tolstoy, the ex-partner of "Putin's Banker" Sergei Pugachev, and her black book, *WOMEN OF THE RUSSIAN OLIGARCHS* features a range of women who've been by the side of the top oligarchs living in the West.
