Take off on a thrilling flight across America exploring coasts, dazzling destinations and outdoor adventures...

From the days of the earliest seafaring explorers, the first glimpse of land has always held an important place in the hearts of men. The sighting of the coast was a sign of promise, hope, and sometimes, simply just a vision of beauty. AERIAL AMERICA: COASTS traverses America's thousands of miles of shoreline and takes viewers on a journey through time.

From Alaska's glaciers to Puerto Rico's beaches, AERIAL AMERICA: DAZZLING DESTINATIONS crosses the continent to showcase some of America's most amazing destinations. Whether it's a natural wonder, an architectural masterpiece or a vacation destination, AA: Dazzling Destinations takes to the skies to explore these diverse places and their incredible stories.

AERIAL AMERICA: OUTDOOR ADVENTURES sets off into America's great outdoors with athletes and day trippers who take on a variety of challenges. Some scale North America's highest peak at Denali National Park. Others plumb its deadly lows in the Badwater Ultra marathon, one of the planet's most grueling foot races. But America's love of outdoor adventure isn't all about defying death. America is a land of pristine wilderness, sprawling national parks, endless vistas, and open roads, all waiting to be explored.
