NCIS (Naval Criminal Investigative Service) focuses on the sometimes complex and always amusing dynamics of a team forced to work together in high-stress situations. Special Agent Alden Parker, a quirky former FBI agent who solves his cases with calm professionalism and sharp, sarcastic charm, leads the NCIS team, which includes NCIS Special Agent Timothy McGee, an MIT graduate with a knack for computers who has now graduated to senior field agent; the charismatic, unpredictable and resilient NCIS Special Agent Nicholas “Nick” Torres, who has spent most of his career on solo undercover assignments; and sharp, athletic and tough NCIS Special Agent Jessica Knight, a formidable REACT agent who specializes in hostage negotiations and high-risk operations. Assisting the team is the naïve Jimmy Palmer, who graduated from assistant to fully licensed medical examiner and now runs the morgue; and forensic scientist Kasie Hines, Ducky’s former graduate assistant. Overseeing operations is NCIS Director Leon Vance, an intelligent, highly trained agent who can always be counted on to shake up the status quo. From murder and espionage to terrorism and stolen submarines, these special agents investigate all crimes with Navy or Marine Corps ties.
